### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance of claims 1-3, 5 and 8-25: The prior art did not teach or suggest an air assist fuel injector as claimed by the applicant, specifically an air assist fuel injector comprising a single piece metallic body that forms part of the metallic core of the solenoid, the body having an impact surface upon which the poppet repeatedly impacts during operation of the injector, a portion of the body configured to be engaged by the armature, together in combination with the other claimed features of applicant's invention. In addition, applicant's arguments filed October 27, 2006 are well taken and were found to be convincing.
2. The following is an examiner's statement of reasons for allowance of claims 26-38: The prior art did not teach or suggest an air assist fuel injector as claimed by the applicant, specifically an air assist fuel injector comprising a single piece stainless steel body that forms part of the metallic core of the solenoid, the body having an impact surface upon which the poppet repeatedly impacts during operation of the injector, an end portion of the body being adjacent the solenoid coil, together in combination with the other claimed features of applicant's invention. In addition, applicant's arguments filed October 27, 2006 are well taken and were found to be convincing.
3. The following is an examiner's statement of reasons for allowance of claim 39: The prior art did not teach or suggest an air assist fuel injector as claimed by the applicant, specifically an air assist fuel injector comprising a single piece metallic body that forms part of the metallic core of the solenoid, the body having an impact surface upon which the poppet repeatedly impacts during operation of the injector, the metallic body having an end portion configured to be

engaged by the armature, together in combination with the other claimed features of applicant's invention. In addition, applicant's arguments filed October 27, 2006 are well taken and were found to be convincing.

4. The following is an examiner's statement of reasons for allowance of claims 40-45: The prior art did not teach or suggest an air assist fuel injector as claimed by the applicant, specifically an air assist fuel injector comprising a single piece metallic body that forms part of the metallic core of the solenoid, the body having an impact surface upon which the poppet repeatedly impacts during operation of the injector, the body having an end portion adjacent the armature, together in combination with the other claimed features of applicant's invention. In addition, applicant's arguments filed October 27, 2006 are well taken and were found to be convincing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
